WMD THREAT AND RISK ASSESSMENT

Local Jurisdiction • MGT-310

This course trains key response personnel within a local jurisdiction who are required to prevent, mitigate, manage, and/or resolve a weapon of mass destruction (CBRNE)/terrorism incident. Participant learning occurs in multidiscipline teams. Upon course completion, these teams will be able to conduct a capabilities-based comprehensive CBRNE/terrorism risk (threat and vulnerability), capabilities, and needs (planning, organization, equipment, training, and exercises) assessments.

The course consists of lectures, small group discussions, participant activities, multimedia scenarios, and the conducting of vulnerability assessments for facilities, sites, and infrastructure selected by the host jurisdiction. Participant activities focus on the DHS Office of Grants and Training (G&T) State Homeland Security Assessment and Strategy (SHSAS) Program's jurisdiction assessments, i.e., risk, capabilities, and needs.
