

Memphis Urban Area Community Resiliency and Earthquake Preparedness Summit

Subject: Summit Follow Up and Thank You

Dear Summit Attendees,

Thanks to all of you for joining us at the Memphis Urban Area Community Resiliency and Earthquake Preparedness Summit on February 11. We hope you found the Summit to be worthwhile. Over the next week or so we will post copies of the presentations on the Community and Regional Resilience Initiative website at <http://www.resilientus.com/index.html>.

The Community and Regional Resilience Initiative (CARRI) Team would like to continue the dialogue on community resilience. Please look for additional correspondence from them in the weeks to come. In the interim, please feel free to contact Sarah Walen (970-513-8340 x 221, [skwalen@merid.org](mailto:skwalen@merid.org)), Arleen Hill (901-678-2589, [aahill@memphis.edu](mailto:aahill@memphis.edu)) or Dave Lannom (615-741-8898, [lannomwdjr@ornl.gov](mailto:lannomwdjr@ornl.gov)) about the Summit, the CARRI project or other related interests.

Best Regards,

Summit planners from the Center for Earthquake Research and Information, West Tennessee Seismic Safety Commission, and the Community and Regional Resilience Initiative
